Spiritual Pushes

During a Spiritual Push, sometimes called a “Magnetization Period,” an extraterrestrial Spacecraft known as “Satellite No. 3” comes into orbit of Earth and potentizes all Spiritual actions by a factor of 3,000 times. Attendance at Aetherius Society activities, as well as the performance of other forms of Spiritual action and practice, is especially important during these times.

During the First and Last Hours of each Spiritual Push, which are particularly potent times, The Aetherius Society holds Power Circles around the world. Throughout the Spiritual Push, Power Circles are also held at the American Headquarters on Monday evenings at 7:55 p.m. local time.

Spiritual Push dates are the same each year and were given by the Karmic Lord Mars Sector 6 through our Master, His Eminence Sir George King in 1988:

Spiritual Push No. 1: April 18 — May 23

Spiritual Push No. 2: July 5 — August 5

Spiritual Push No. 3: September 3 — October 9

Spiritual Push No. 4: November 4 — December 10

Satellite No. 3 comes into orbit and leaves orbit at precisely 12 midnight GMT.

Operation Space Power

Every day during a Spiritual Push, our five Spiritual Energy Radiators around the world each run for three hours as part of **Operation Space Power**, the ongoing Cosmic Mission established by our Master in cooperation with Satellite No. 3. The Spiritual Energy Radiators are also operational during the First and Last Hours of each Spiritual Push.

Commemoration Summaries

October 26 – The Eviction of the Alien

A non-human alien intelligence, fabricated by entities outside of this Galaxy, was discovered in the lower astral realms of Earth. This alien “android” was programmed to take control over all life on the physical and subtle realms of Earth and had the power to do so! It was almost indestructible and had the capability of creating huge and deadly thought-forms. It had been dormant for millions of years but was shaken from its dormancy by the Primary Initiation of Earth in 1964. Because the position of Earth was considered to be strategic from a military point of view, the entities who made and programmed the android intended to make a base on Earth for future use as a striking point against the Solar System and other parts of this Galaxy.

The battle took place in the lower astral realms, involving 27 Phases over eight months. For the first nine Phases, the Three Adepts battled alone but in later Phases, they were joined by Adepts Nixies Zero Zero Four and Nixies Zero Zero Five; certain Members of the Great White Brotherhood; and an ally in the lower astral realms, the “Prince” and his army.

After a horrendous conflict, the Forces of Light prevailed and the Five Adepts and their helpers were able to evict the alien from its lair in the lower astral realms and send it out of the Solar System on October 26, 1965. Because of the vast importance of this tremendous victory to all life on the planet Earth, October 26 is regarded on the Higher Realms as the second most important date in the year, the first being July the Eighth, The Primary Initiation of Earth.

November 11 – The Start of Operation Earth Light

Operation Earth Light is a Mission designed by His Eminence to transmit energies from certain Psychic Centers of Earth through specially designed equipment to the Higher Devic Kingdom. Following Her Primary Initiation, the energies being released by the Mother Earth are increasing. This Mission was designed to assist, even in a small way, this release.

The Mission was first recognized and accepted by the Protectors of the Ineffable Flame of the Logos of Earth in an audience they held with His Eminence in 1979.

Later, our Master’s design of the radionic equipment to be used in **Operation Earth Light** was offered to the Spiritual Hierarchy of Earth who were in a position to perform the Mission on a much wider scale than could The Aetherius Society. They readily accepted the offer and a special team went to work in earnest to manufacture the equipment needed to carry out this Mission.

On November 11, 1990, the Spiritual Hierarchy of Earth successfully launched the Mission known as **Operation Earth Light**. The Lord Babaji communicated this message to our Master: “We wish to thank you for your **Operation Earth Light**. This Mission will become of great importance — and become global!”

November 22 – The Incorporation of The Aetherius Society in America

In 1959, our Master traveled to America to extend the world Mission Operation Starlight. At a flying saucer convention that year in Los Angeles, he met his future wife and her sister — Monique and Erain Noppe. Shortly afterwards, Charles Abrahamson joined them, and the four Founder-Directors of The Aetherius Society in America had come together.

The Aetherius Society in America was officially incorporated on November 22, 1960, and California would remain our Master's primary residence throughout the remaining 37 years of his Mission. Although observance of this Commemoration is not a condition of Full Membership, our Master considered it to be very important. As with any birthday or major event, commemorating it, especially in a spiritual manner, gives it a greater power. And it is on this day that we release **Operation Prayer Power** energy to the Spiritual Hierarchy of Earth to honor these great Masters for their wonderful service to our world, remembering that it was a prominent Member of the Spiritual Hierarchy, Saint Goo-Ling, who first visualized The Aetherius Society into being.

A numerological analysis of this birth date, along with the name "Aetherius," in the book "The Age Of Aetherius," substantiates what seems perfectly clear — that the destiny of The Aetherius Society is "the revelation of Cosmic Truth."

November 29 – The Completion of Operation Bluewater

Prior to the Cosmic Initiation of Earth, it was necessary to concentrate spiritual energy in specific parts of the Earth, due to a warp of existing magnetic fields in the Planet's orbit around the Sun. This warp, a product of the wrong thought and action of mankind, had prevented the intermingling of certain subtle forces with the pranas radiated from the Sun. Operation Bluewater brought about the necessary concentration of energies to put this situation right.

His Eminence was chosen by the Cosmic Masters to perform this Mission and was given the task of designing radionic equipment through which subtle energies could penetrate 2,000 feet of seawater. A small team at the American Headquarters built the equipment, and purchased and prepared a vessel needed for the performance of the Mission.

During the four Phases, which took place in 1963 and 1964, the vessel was taken to a specific location off the California coast where our Master piloted it through an intricate pattern of maneuvers within an energy field broadcast by the Cosmic Masters, with whom he was simultaneously in telepathic rapport. The energy was collected, conditioned, intensified and radiated through the radionic instrument into a Psychic Center of Earth.

Had the Mother Earth had to make "outside" demands for the energies to balance this Psychic Center, without the intervention of Operation Bluewater, this would have caused a massive earthquake about 200 miles off the California coast, which would have devastated the west coast of America from Portland, Oregon, to Ensenada, Mexico, inundating San Francisco with an estimated two miles of seawater!
